

# Junction Box

for connection of 400V 3N equipment to 230 V 1N power supply

Elegant wall-hanging junction box allows to quickly connect 3-phase sauna equipment (up to 9 kW power) to a 1-phase power supply. With integrated 3 x 16 amp fuse and quick access opening glass lid.

**ATTENTION!**  
The N and PE line from the sauna heater must not be connected to the sauna control panel. It shall be connected directly to the N and PE of the power supply.

Junction box with 3x16A fuses for 3N to 1N conversion. Max. 9 kW power load!
